What's the difference between pressure canners and pressure cookers?
The All American Pressure Canning manual states that (due to foaming) you should not seal the lid. This would build pressure and prevent water bath canning. Pressure-cooking is the fastest, most energy-efficient and nutritious way to prepare family meals.

A pressure cooker is an essential accessory for any kitchen since it makes cooking faster and more efficient. It can be used for a variety of recipes, from soups to beans, and is also great for canning.

The National Enameling and Stamping Company (NESC) was founded in 1889 and is now known as Instant Pot. They offer a wide range of pressure cookers, including the Instant Pot DUO60, which is a 7-in-1 pressure cooker with a mirror finish and double-riveted construction.
